RE: Update on COVID-19 outbreak to Staff, Students and Visitors in Lloydminster Comprehensive High School

This notification is to inform you that the outbreak of COVID-19 at Lloydminster Comprehensive High School has been declared over by Dr. Mandiangu Nsungu, Medical Health Officer.

We remind parents and guardians of students, as well as any staff, visitors, and volunteers to continue monitoring for any signs or symptoms of COVID-19 as part of their daily routine. Please remember to complete an assessment for symptoms each day prior to attending school.

We strongly recommend that everyone who is eligible gets both doses of a two-dose COVID-19 vaccine series, including all household members of students and staff members.

If anyone develops symptoms, please self-isolate at home and seek testing immediately. Should you require medical attention, it is important to call ahead to your health care provider's office so arrangements can be made for you to be seen a way that reduces the chance of exposing other individuals.

Thank you for your support and continued collective efforts in protecting our school community. For further information regarding COVID-19, please call Health Line at 811, and/or visit the Saskatchewan Ministry of Health website at www.saskatchewan.ca/covid19.

Sincerely,

Kelly Greenwald, Public Health Nursing Supervisor
